SUMMARY

I am Mochammad Jimmy Marchel, a 6th-semester Informatics Engineering student at Muhammadiyah University of Sidoarjo, with 3 years of hands-on experience in self-taught web development. My journey has centered on honing full-stack development skills while actively exploring cutting-edge technologies and frameworks. Driven by a growth mindset, I thrive on learning new thing.

EXPERIENCE

STUDY INDEPENDENT - BISA AI ACADEMY   *(Sept 2024 - Dec 2024)*

Cyber Security

Actually here I not only learn cyber security but many things, starting from fullstack programming with Python, React JS, MySql, then learning a little about cloud computing, devops with Docker, and improving soft skills one of which is by becoming a webinar presenter. for cyber security we only learn the basics such as how networks work, Sql Injection, XSS, etc.

EDUCATION

Muhammadiyah SIdoarjo University (2021 - Now)

Informatics Engineering

Informatics Engineering emphasizes learning that focuses on software development, programming, computer networks, database systems, artificial intelligence, and cybersecurity. I learned various programming languages such as Typescript, Python, Rust, as well as various frameworks and tools used in application and software development.

SERTIFICATION

- *Certified Junior Web Developer from Kominfo*
- *Cyber Security - Bisa AI Academy*

SKILLS

- *Linux*
- *Structured Query Language (SQL)*
- *TypeScript / JavaScript*
- *Node JS*
- *Bun JS*
- *Next JS*
- *Tailwind CSS*

- *Responsive Design*
- *Restfull API*
